CONFIDENCE

That's the striking thing about a *Lucitone* denture. Made to keep a secret, its lifelike naturalness is an irresistible subject for comment. ★ ★ When you find a prospective denture patient talking denture materials like a veteran, you may be sure that one of his friends has given away a secret that *Lucitone* would have kept forever.

S.S. White DENTURE ACRYLIC

CONTAINS NO PLASTICIZER

**SUPPLIED
PINK and CLEAR**

S. S. WHITE SEPARATING FILM

S. S. White Separating Film replaces tinfoil in processing acrylics. It is easy to apply; it gives excellent separation, dries rapidly on a hot cast and investment.

It eliminates stripping and will not deteriorate, if kept free of foreign matter. Separating Film gives excellent results, goes far, and is a time and labor saver.

Supplied in

4 ounce, 16 ounce
and 32 ounce bottles

S. S. White Denture Acrylic is a methyl methacrylate resin powder and liquid type of denture base material, the highest quality polymer-monomer denture material adapted to denture purposes.

Denture Acrylic is easy to process. It reproduces the minutest detail of the mold; holds its form, its color, and its beautiful surface indefinitely.

It is tough, resilient, and strong; produces dense, non-porous dentures that are easy to finish.

It is odorless, tasteless, insoluble in mouth fluids, and dilute acids, and dilute alkalies will not harm it. Until mixed for use, the shelf life of powder and liquid is indefinite.

Complies with A.D.A. Specifications

Red Cross Drive Begins March First

Dentists Asked to Contribute \$20,000.00

The annual campaign of the Chicago Chapter of the American Red Cross begins March 1. The quota assigned to the Chicago area is \$11,300,000. The various businesses and professions are being given quotas which they are expected to meet. Dentistry has been asked to contribute \$20,000.00.

All dentists who contribute to the Red Cross are asked by Dr. James W. Ford, chairman of the Dental Group, to make their contribution through the Chicago Dental Society so that the profession may receive credit. Before the end of February a letter will be sent to each member requesting that he send his check to the Society office in an envelope enclosed for that purpose.

Branch committees named by the president of the branch have been formed for the solicitation of funds in local communities. Names of committee members which have been received at the Society office include the following: North Side, Edward W. Luebke, chairman; Maurice J. Horan, O. C. Larsen, Irving Rothenberg, August Swierczek and Roland A. Weber. Northwest, Mark C. Spencer, chairman; B. P. Davidson, D. D. Klein, E. Glenn Lahr, I. G. Neer, I. A. Oveson, B. Placek, C. J. Rogalski and H. R. Wenger. South Suburban, H. C. Drummond, chairman

for Harvey; L. G. Bettenhausen, chairman for Chicago Heights and Frank W. Tracy, chairman for Blue Island. West Side, George N. Frost, chairman; Maurice C. Berman, vice-chairman; Morton M. Herzon, Jerome F. Nachtman and Joseph C. Nowak.

DENTAL GROUP PRAISED

General Campaign Chairman Martin H. Kennelly expressed his appreciation of the fine spirit shown by the Dental Group, and in an address before the campaign personnel said:

"This year the quota of the Chicago Chapter area is \$11,300,000. We are not only going to raise \$11,300,000, but we are going to do the job on a 'Let's Speed Up' basis.

"It's costing \$6.00 a second to furnish Red Cross services throughout the world. How many seconds will each contributor purchase, or what part of a second? How many seconds will the Chicago area purchase?

"Remember it is not the money we are collecting but the services the money provides and I am sure that with this thought in mind you will do everything within your power and leave no stone unturned to 'Keep Your Red Cross at His Side.'"

NEWS AND ANNOUNCEMENTS

MARCH 1 DUES DEADLINE

Members of the Chicago Dental Society who have been in the habit of paying their annual dues at the Midwinter Meeting are cautioned by Secretary Harry Hartley to have their checks into the Society office by March 1, if they are to remain in good standing. After that date their names will be dropped from the mailing list and they will no longer receive society announcements or the three publications that go with the membership. They are *The Journal of the American Dental Association*, *Illinois Dental Journal* and *THE FORTNIGHTLY REVIEW* of the Chicago Dental Society.

LOYOLA PLANS NEW DENTAL BUILDING

A post-war program of development was recently announced by Loyola University which includes a structure to house the medical and dental schools in the west-side medical center. Architects have been invited to submit competitive sketches for five new buildings, one of which will be the medical-dental school. The other buildings are on the Lake Shore campus. Loyola has almost a one-half square block of land for its medical and dental schools and one of the prospectus for this structure is a skyscraper type of building in collegiate Gothic design. The buildings planned are a part of the seventy-fifth anniversary program of development by the University.

183 PHYSICIANS DIE IN MILITARY SERVICE

The American Medical Association recently reported in its *Journal* that in 1944 seventy physicians were killed in military action and 113 others died in military service. Since the outbreak of the war, there has been a total of 101

physicians killed in action and 255 who died in service. The *Journal* also reported that it had published the obituaries of 3,172 physicians during 1944. Heart disease was the leading cause of death. The average age of American physicians at the time of death in 1944 was 65.3 years.

It is estimated that on the accelerated training program there were approximately 10,000 physicians graduated from medical schools during the year. These statistics indicate a large increase in the medical profession.

PLAN FOR HOSPITAL CARE PROVIDES PENICILLIN

The Executive Director of the Plan-For-Hospital-Care, Mr. J. R. Mannix, has announced that penicillin has been added to Plan benefits. When penicillin is prescribed for Plan members who are patients of hospitals it will be provided without charge. The hospitals will be reimbursed for the cost directly by the Plan. These drugs are now available to Chicago hospitals for civilian use. The action announced is in keeping with the policy of increasing benefits as the reserves of the Plan-For-Hospital-Care are built up.

FUNDS PROVIDED FOR CARIES RESEARCH

The Nutrition Foundation, Inc., has awarded grants amounting to \$131,000 for research in nutrition. The grants are distributed among twenty-three colleges and universities in the United States and Canada.

Dr. C. G. King, scientific director, made the following statement: "Research projects having the greatest value thus far were those dealing with army rations, human protein requirements, maternal and infant nutrition, dental caries and human vitamin requirements."

EDITORIAL

DISCRIMINATION IS NOT THE WAY

Dentists will be disturbed when they know that the American Dental Association is accused of racial discrimination, of suggesting that a racial quota be established to govern those admitted to study dentistry. The accusation stems from a statement in a report prepared by the American Dental Association's Council on Dental Education and sent to a Congressional Committee instructed to study the effects of the war on higher education.

The report states that there is a racial and geographic unbalance among the students enrolled in our dental colleges, that twenty-four per cent are residents of New York and New Jersey, that they are largely of one race and of foreign extraction, that determined effort should be made on a national scale to counteract the marked unbalance. The group referred to is obviously the Jewish.

The inference made from this statement is that the A.D.A. is prejudiced and anti-semitic, that it is urging a quota system to control population activities similar to what has been used in Hitler's Germany. It is unfortunate that such an implication has been made. There is no place for racial or religious discrimination in a democratic society, particularly in a profession concerned with public welfare. This cannot be the attitude of the A.D.A. We believe that a report with any anti-religious or racial implications would never be approved by the House of Delegates of the A.D.A. which is the true governing body and final authority of that organization.

A major concern of the dental profession is how to attract and not discourage more students to its calling. We do not need to quote statistics to inform dentists that there are not nearly enough dentists to meet the need. Only twenty-five per cent of the population has been receiving dental attention. Dental treatment requires time, it cannot be managed by prescription. There is room for many more in our profession if the public is to be adequately served.

Any individual with the proper mental, digital, and ethical qualifications who desires to study dentistry should be welcome. The American youth by and large has not been sufficiently informed about the opportunities that the practice of dentistry offers. It is up to the dental profession to stimulate the desire to study dentistry and to correct any unbalance, not by a quota restriction, but by an expansion of interest in dentistry as a profession.

We are fighting a horrible war at tremendous cost to preserve a Constitution which provides freedom and equal opportunity for all who live under its rule. This fight must not be a mockery. A humanitarian profession such as dentistry must be exemplary; it can hold no brief for any policy which would limit the educational opportunity of capable citizens.

—Robert G. Kesel.

Story of the Chicago Crime Commission

Police Morals Squad Indicted

The Committee presents herewith the twelfth of a series of articles acquainting the dental profession with the growth, development and outstanding achievements of the Commission as a vigilant pressure group acting in behalf of Chicago and its citizens.

With the advent of 1942, gambling and racketeering was at its lowest ebb in two decades. The vigorous campaign conducted by the Chicago Crime Commission had been given full publicity by the daily press throughout the United States. The Federal authorities had taken action and many notorious racketeers were prosecuted and convicted for evasion of Income Taxes. The Cook County Grand Jury investigations and indictments had a salutary effect. The sheriff finally ended his circus performance by parting company with his chief deputy and then found he had inherited a female relative of a notorious gambler who had been employed by the deputy.

Acting upon the report of the Grand Jurors and its own records the Chicago Crime Commission demanded that charges be filed against a captain and three members of the police Morals Squad for non-performance of sworn duties. This was done. The Commission then requested that the policemen be suspended. They were. Then followed a procedure which amply demonstrated the existence of an alliance between politics and crime. One of the Civil Service Commissioners was never officially re-appointed by the mayor and was thus a hold-over violation of regulations. Only two of the commissioners actively participated in the hearing of evidence against the policemen. A Chicago Crime Commission observer was present at the hearings and from his reports it was evident that the commissioners were not seeking evidence, but rather an excuse for finding the policemen not guilty. The evidence was convincing, but the Civil

Service Commissioners found the accused not guilty.

The finding of the Civil Service Commission brought a demand from the Crime Commission that all three commissioners be removed. The newspapers flayed the Civil Service Commission unmercifully. The Chicago Crime Commission challenged the decision in a letter to the mayor. The flood of resentment grew and the mayor finally announced the appointment of a committee of outstanding legalists, whose integrity and ability could not be questioned, to review the evidence and findings of the Civil Service Commission. At about the same time, two of the accused policemen were promoted and the demand of the Crime Commission that the members of the Civil Service body be removed was ignored.

After careful study, the review committee announced that the Civil Service Commission had erred in its findings and that the policemen should have been found guilty. The mayor then appointed three new members to the Civil Service Commission.

The Chicago Crime Commission duplicates the work of no other organization. It has no competitors in its field of endeavor. The information contained in its files can be found nowhere else. It has been a defense body of public good for twenty-two years and is today the one and only bulwark of all honest public officials, business, professional and lay citizens against connivance of "public enemies" and unscrupulous politicians to defeat orderly government.

The Chicago Crime Commission recognizes the present-day racketeer, whether in gambling, labor unions or distribution fields, as the most vicious agent in the arena of crime. The racketeer bribes, intimidates, maims and murders. He is the prostitute of business and good government. The Chicago

NEWS OF THE BRANCHES

WEST SUBURBAN

The decision to cancel the Midwinter Meeting is now water over the dam. Whether or not that decision was prudent is debatable. We can, however, extend a hearty thank you to the officers, committee chairmen and members for their effort in arranging the fine program which was to have been presented for our benefit during the meeting. . . . James Guerrero has moved his office to 5522 West North Avenue. You are now on our side of the tracks, Jimmie. . . . Lt. Commander is the new rank of Ernie Hudec, who is stationed in New Caledonia. . . . Earl Crawshaw has fully recuperated from an illness which kept him confined during the holidays. . . . C. N. Pederson is on the sick list. . . . Mitchell Juliussen, stationed in Belgium, writes that he can distinguish the difference between a German V-1 and V-2 bomb by the sound as they whiz overhead. . . . E. W. Edlund was surprised to see a picture of his son, Kenneth, in the December 4 issue of "Life," on page 28. Kenneth was photographed in a machine gun emplacement.—*Richard Anderson, Assistant Branch Correspondent.*

KENWOOD-HYDE PARK

No news is good news! Our boys are all working hard and their lights shine more brightly at night since the "Brown-out." We'd suggest dimming them on the first Tuesday of each month in order to attend our monthly meetings. . . . Scotty Morange and Howard Strange are in the sunny south. The rumor is that Howard is on a research mission among the white sands of Florida trying to discover a new silicate. . . . Syl Cotter announces a tour to replace the three days usually spent at the Midwinter Meeting. However, he hadn't indicated what it will cover—it may be a trip to New Orleans or a trip through China-

town. Call Syl for further information. . . . Chris Davidson is so busy he works right through the dinner hour. No wonder he keeps his slender figure. See you all on Tuesday night.—*Grover O. Schubert, Assistant Branch Correspondent.*

ENGLEWOOD

The next monthly meeting will be held at the Hayes Hotel, Tuesday, March 13. The speaker will be Dr. G. H. Lundquist of Northwestern University, and the subject of his talk "The Fundamental Principles of Root Canal Therapy." . . . Don't forget the Red Cross Drive which starts March 1. Make your donations through our own branch. . . . Mr. Hopkins wishes to announce the formation of an Englewood Chorus Group. Everyone is invited to join, so come on fellows whether you sing soprano, baritone, basso profundo or what have you. Call Saginaw 3637 if you are interested. . . . Harold Hayes, while driving a few weeks ago, slid on the icy pavement into a laundry truck. Fortunately he emerged with no broken bones. . . . Lt. A. Tanis recently stopped off in Chicago while being transferred to San Francisco. He had been located in New York. . . . Dr. Zeimer is mourning the death of his wife. We, as a group, extend him our sympathy. . . . Ray Gates has returned from Texas and Mexico where he inspected several citrus groves and did a little hunting down Monterey way. . . . O. E. Johnson and his wife are spending a vacation basking in the Florida sun at Ft. Lauderdale. . . . Capt. C. A. Sinard, who is with the Marine Air Squadron, has been transferred to sea duty. . . . We were glad to read that Lt. Col. Emil Aison has returned to the States. Welcome home, Emil. . . . It is to be regretted that the Midwinter Meeting has been called off. It has been one of the high spots of our year, and has meant a grand occasion

to renew friendships, sometimes too well. However, it has been our experience that each meeting has sent us home with renewed pep and ambition to go out and DO. Perhaps the tall tales told us by our confreres has been instrumental in thus spurring us on. But be they true or false you will admit they do something for you.—*Frank Hospers, Assistant Branch Correspondent.*

NORTH SIDE

The program committee is to be congratulated on the success of our recent branch meeting. Dr. Skinner's talk on "Acrylic Resins," was highly instructive and interesting from first to last. The dinner hour was pleasant and the attendance good. . . . Some of our boys are being discharged from service. Lt. Col. Louis Schultze, for some time at Camp Mackall, North Carolina, has been returned home. Capt. Frank Fabian, with the Yanks when they invaded Africa, received his discharge in '44 and is again in active practice. . . . Capt. Fred Sammons, in India for many months, has been at home on leave. He is now in Florida awaiting a new assignment. . . . Capt. Roger Stockton on leave from service in New Guinea is in the hospital at Galesburg, Illinois, recuperating from a slight illness. . . . Sid Pollock has been made a lieutenant commander. He is on a lonely isle in the Pacific wishing for a letter from some of his old pals and longing for home. Bill Schoen can give you the address. . . . Leo Kremer is still apologetic for missing the Ladies Night Party. He and Mrs. Kremer had attended these parties for many, many years and deeply regretted passing up the last one, which was principally due to out of town visitors, Leo's mother, sister and brother. . . . Roy Schulz spent three weeks at Hot Springs, Arkansas. He did more or less hiking, took the baths and returned home feeling refreshed and fine. . . . Al Boman's son, Vernon, who graduated from Northwestern Dental School in September, was married January 28 to

an Indianapolis girl. He is a naval lieutenant and is stationed at San Diego, California. . . . Two of our stalwart bowlers, the Young brothers, are spending a month in Florida, Bill at St. Petersburg and Al at Miami. . . . Ernie Kuhlman recently hung up a frame of 233. Quite a thrill for any player. . . . Reports of the Yanks' dramatic recapture of Manila reads like something out of a story book, and thrills every American. With such favorable developments on all the battlefronts we can hope for a renewal of the Midwinter Meeting in '46.—*Z. D. Ford, Branch Correspondent.*

NORTH SUBURBAN

Many North Suburban members were active on committees for the planning of the annual February Meeting. These hard working committeemen are usually repaid by the satisfaction of seeing a successful program. Because of the cancellation of this year's meeting they more than ever deserve our thanks for their efforts. . . . Agronomist John McGuire is now twice blessed due to the birth of his second grandson. The baby's father, Bill, is out in the Pacific theatre with the Army Air Corps. . . . Jim Burrill also has a new grandchild. Elizabeth Ann was born January 25 to Dr. Dan and Dr. Marie Burrill. . . . With all this snow on the ground it might seem that golf should be far from one's thoughts, but a report from a usually reliable source states that O. E. Scott was seen the other evening in a practice court and that his swing is in the groove with mid-season form right now. . . . A recent meeting of the Northwest Study Club, which has a membership roster of dentists from Norwood Park to Barrington, developed into a surprise birthday party for the host, Eddie Baumann. The president of this twelve year old organization is Hosmer Law. . . . Randall Wescott is vacationing in Fort Lauderdale, Florida. . . . The next branch meeting will be on Monday, March 12 (same place, same time, same door prize). The speaker will be Dr. William

Petersen, formerly head of the Department of Pathology at the University of Illinois, College of Medicine. Dr. Petersen is well known throughout this part of the country for his work on the effect of barometric pressures on physiologic and disease processes. His subject will be announced later. Every once in a while we run across a remark about ending sentences with prepositions. Bennett Cerf, writing in the *Saturday Review*, tells about a boy who ended a sentence not with one preposition, but with five. The story goes something like this. A certain man was reading from a book to his small son. The son wasn't interested, and said so. The father said that in that case, he should go to bed without his dinner. Later he relented and took the boy's dinner to him. On the tray, however, was also the book. Whereupon the boy said, "What did you bring the book I don't want to be read to out of up for?"—*Waldo O. Urban, Branch Correspondent.*

NORTHWEST

This month of February although short in days, is going to seem mighty long with no time out for the big meeting. It will do no good to moan and fret about its cancellation as we certainly can dispense with the meeting to help the war effort. We have been fortunate to have had three wartime gatherings. . . . Jerry Rund after spending some time in the hospital following an operation, had to go back again for further treatment. We hope this time he'll come home fit as a fiddle. . . . For a month, Tucson, Arizona, was the address of Harry Harnick. On his return Harry gave out like a press agent concerning the wonders of the Southwest—only two bad days in the whole month. . . . John Kleczewski, after serving about four year in the Army, most of it in the South Pacific, received an honorable discharge and is reopening his office in the 2800 Milwaukee Avenue building. . . . Our director Iver (Father) Oveson left for Phoenix, Arizona, for

two weeks of sunshine (he hopes) and rejuvenation. These fellows traveling South must have the right connections to help them get adequate transportation accommodations. . . . For details of our March meeting, see the Calendar on page 4. That's all for now—paper shortage you know. — *Thad Olechowski, Branch Correspondent.*

SOUTH SUBURBAN

Attention ye men of South Suburban, we have news of great importance for you. For our March meeting we are fortunate to have as our speaker Dr. George Hollenback of San Francisco. As most of you know, he is one of the foremost inlay men in the country. Dr. Hollenback has been doing a lot of research work to determine the best method of investing and casting inlays in order to achieve as accurate a casting of the original wax pattern as it is possible to reproduce. One of his latest methods is to mix and invest the pattern in a vacuum. At last year's Midwinter Meeting he gave a clinic along these lines and, I understand, has improved considerably the technique he employed at that time. Let's have a good turnout for Dr. Hollenback at our next meeting which is to be held on March 6 at the Elks Club in Harvey. There will be the usual fine dinner served. Come one, come all! . . . The main item of local news which we have to report is the birth of a son, Walter Scott, to Dr. and Mrs. Silvio Tiberi. We expect to have a cigar placed in our hand as we extend it in congratulation at the next meeting. . . . A. W. Brookstra over in Blue Island is pulling out his suitcases and dusting them off in preparation for that Florida trip he is planning to take. . . . Joe Jarabak is shifting his orthodontic headquarters from Flossmoor to Homewood where he will share space with England Paulsen. Speaking of Paulsen, we have not seen him in attendance at any of our meetings this year. That goes for a lot of you other guys too. . . . That's all for now, see you in March.— *H. C. Gornstein, Branch Correspondent.*

WEST SIDE

At our March meeting Dr. Chauncey Maher of the Cook County Hospital Staff and head of the Heart Clinic will discuss the heart in relation to dentistry. He will talk on rheumatic fever, effects of adrenalin in administering local anesthetics, general anesthesia and other heart conditions arising from the effects of this war. Why not plan to attend the meeting so that Dr. Maher can enlighten you with his practical knowledge of the heart? . . . Henry Melichar recently returned from Mississippi where he saw his son, Henry Jr., receive his wings and his commission as a second lieutenant. Henry Jr. was also appointed a pilot instructor on twin motor airplanes. . . . Henry's younger boy, George, is a naval cadet at San Mateo Academy in California. . . . Chester Bellan's car crashed into a viaduct on Western Avenue, due to the icy condition of the street. I can sympathize with Chester having experienced a similar predicament—now, we are both riding streetcars. . . . Earl Boulger, Leo Cahill and John Reilly were guests of Lt. Lawrence Faul at Great

Lakes. They agree that some of the best amalgam work they have seen in years is being done there. They thought all the dental work of a very high calibre with emphasis on the surgical preparation for dentures. . . . The following members have been released from service and are back in civilian practice—Harold Epstein and Ed Chmiel in the Madison and Crawford Bank Building, Art Tessler and Harry Shanoff in the Walgreen Building at the same intersection, and Irving Gelman at Central and Madison. . . . Leon LaFond is convalescing at the Vaughn General Hospital. . . . Sam Rakow is still in high spirits and we are looking forward to seeing him at our next monthly meeting. . . . We wish a speed recovery for S. D. Kretshmer's mother, who is seriously ill. . . . Robert Bailey took an airplane trip to Mexico and back. By the way, how are your arteries? . . . Our nominating committee consisting of Chairman Leo Cahill, Henry C. Lee, Henry Melichar, Eli Olech and W. J. Serritella is really going into action these days.—*Frank J. Kropik, Branch Correspondent.*

of TOOTH and
SILICATE RESTORATION

use

COPALITE

COPALITE is the *ideal* insulating resin that eliminates thermal and galvanic shock and postoperative pain due to thermal extremes. This germicidal, intermediary varnish is used under every type of restoration — silicate, porcelain, amalgam fillings, inlays. It penetrates, seals the tubuli against absorptive action and irritating filling material. Prevents hyperaemia, death of pulp and discoloration.

use

OVR-COTE

OVR-COTE as the name implies, is a temporary covering lacquer which safeguards the restoration while setting, against the harmful action of all mouth fluids. It is very easy to use, requires little time. Use Copalite and Ovr-cote on every restoration for strong, lasting, successful service. The cost is negligible. Write today for complete information.

GOOD NEWS

NATURAL BLACK BRISTLE BACK AGAIN

For the thousands of the Dental Profession who have been advocating the use of the Butler Brush for so many years, this will indeed be good news.

Due to the war, it has been unobtainable for some time, but now we can again supply you and your patients with the natural black in the following two textures—Hard and Extra Hard. Nylon is still available for those who prefer them.

NATURAL BRISTLES ARE BACK ON PY-CO-PAY BRUSHES

A recent national survey of dentists showed that genuine natural bristles were preferred 3 to 1. Now the Py-co-pay brush, adult size, is available with natural bristles—black—extra hard. Tell your patients to ask for Py-co-pay "Natural."

Py-co-pay is recommended by more dentists than any other brush.

The Py-co-pay "Natural" is in addition to the regular line of Py-co-pay brushes with nylon bristles.

Pycofé Inc.

PY-CO-PAY TOOTH BRUSHES

HOW SMILES, Inc. HELPS YOU . . .

Smiles publishes famed ethical ADVERTISEMENTS like these, in the CHICAGO DAILY TRIBUNE.

They are interesting, informative, persuasive. No matter what the future . . . these ADS can send patients, entire families, to YOU, asking for your dental services.

TELL them the fee you'd charge . . . THEN, tell them that they can pay CASH, or . . . they can use the simple EASY SMILES System . . . and, PAY for ALL the dentistry they need . . . in SMALL, easy, MONTHLY payments . . . over a year . . . out of income . . . with NO down payment . . . FIRST payment in 30 days.

They LIKE that. They buy almost everything they buy ON TIME. They understand it. You've made a friend for years; given them opportunity to get their teeth fixed . . . and pay in small easy payments.

HOW YOU HELP SMILES:

Start the ball to rolling . . . send us just ONE Smiles Contract monthly.

Her teeth . . .

they're so fragile, and so susceptible to decay . . .

. . . and if they aren't clean and sound . . . what a handicap you give her! She loves candy, and snacks between meals, and she forgets to scrub her teeth. That's the chance that decay asks . . . and it goes to work and takes her teeth, and her beauty, and poise . . . and even takes her chance in life. Make it your business, to take her to your dentist, regularly. Don't let your children be handicapped in life.

How YOU can make MORE MONEY !

Don't stand still. Here's OPPORTUNITY. START using the SMILES System . . . ALL your patients will be grateful to you . . . YOU make MORE money.

Send ONE Smiles contract to us this week. You help us . . . and WE help YOU.

Note these MONEY making advantages:

1. SMILES takes the selling load off your shoulders; sends whole families, and individuals, to you asking for modern dentistry.
2. SMILES enables you to accept their business because SMILES enables your patients to accept your diagnosis and recommendations.
3. SMILES provides them with an acceptable, easy payment plan whether your bill is for \$50.00 or \$500.00.
4. SMILES sends YOUR money to YOU in ADVANCE.
5. SMILES takes the entire financial load off

ASK your dentist how to get COMPLETE dentistry NOW . . . Ask to PAY out of income, the SMILES way . . . over a year, with NO down payment . . . FIRST payment in 30 days.

Smiles, inc.

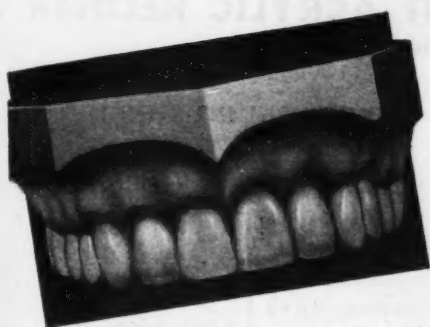

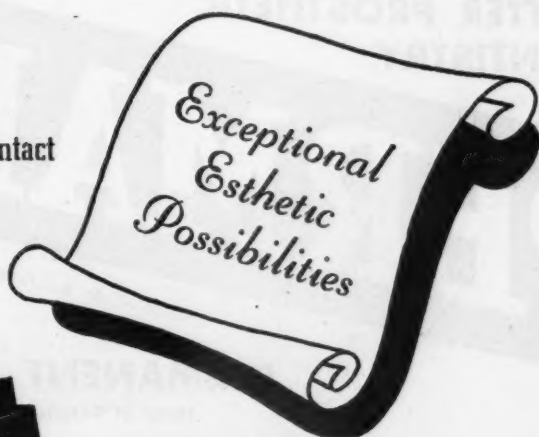

your shoulders . . . takes on the burden of collecting, of bookkeeping, of billing, of sending YOUR money to YOU in ADVANCE.

6. You are not liable, not responsible for any part of the collection. When we purchase the contract, we purchase it without recourse. You do not sign the note; you are not a co-signer; you are not responsible for a dollar . . . if we can't collect, or if the collection is delayed.

You eliminate all your losses, all worries; you eliminate billing, bookkeeping, collecting. You save time. You get paid in ADVANCE.

TRUBYTE New Hue PIN PONTICS

for

Stationary Bridgework

TRUBYTE New Hue Pin Pontics offer esthetic possibilities seldom attainable with facings or other pontics.

The natural Trubyte New Hue forms, exquisitely natural New Hue shades, the vitally translucent, fluorescent New Hue porcelain which absorbs color from and blends with adjacent natural teeth make possible a restoration which matches the natural teeth beyond detection.

Added to these basic essentials for esthetics are an All-Porcelain Incisal, adaptable to all bite conditions, and a root-end adaptable to socket insertion or saddle type bridges.

MICROMOLD TEETH

THE ONLY TEETH WITH
THIS STRONG, MOLDED
INTERPROXIMAL
RETENTION

Here's the real story of the new Molded Interproximal Retention used on Austenal Teeth.

This scientific principle of retention has advantages not possessed by any other form of retention.

It has proved its strength and security of retention in many thousands of practical cases.

It provides a more natural lingual. This advantage to the patient is alone sufficient to justify its universal acceptance by the profession.

The advanced Micromold Process of making teeth makes possible this stronger, more secure method.

No extraneous metal parts are needed, which in itself is a vast improvement over the conventional retention.

Staining can be done more esthetically and adding-on more easily.

The Molded Interproximal Retention is **EXCLUSIVE** with Austenal Teeth.
